# American Association of University Women

In 1881, higher education was thought to have been harmful to women's health. Since then, AAUW has upheld its commitment to cutting-edge research resulting in national discussions on equal pay, bullying in school, and women's contributions to science, technology, engineering, and math (S.T.E.M.).

With its commitment to "advancing equity for women", AAUW and women realized the greatest number of women, 150, elected to the U.S. Congress.

## AAUW - Flagler

AAUW Flagler began in 1984 when area women recognized a community need to support the goals of higher education and advance issues for women and girls.

AAUW Flagler proudly reinforces and sustains educational goals for middle and high school students, continuing education professionals, and undergraduate and graduate university scholars through an array of grants and scholarships.

We engage our members by featuring guest speakers at our regular meetings, encouraging spirited literary discussions with Reading Women, and organizing events that help the next generation of women leaders advance.
